

HERE'S the POINT!

By SPENCE HELD

A high school class recently saw a business procedures movie titled "Who Threw That Monkey Wrench?"

Each girl thereupon was required to write a brief report—maybe 30 words—on what she had seen.

One listed the title as "Who Threw That Monkey Wrench?"

Another version was "Who Threw That Monkey Ranch?"

A graduating senior came up with this:

"Who Through That Monkey Ranch?"

That same girl, in another exercise, listed appropriate "close to wares" in an office.

Here's the point: Practically everybody has been graduating from U. S. high schools for some years now. However, one of my spies tells me that the S. D. schools are beginning to raise their standards—even going so far as to eliminate a few who don't know the difference between six, sex, sax and sox.

Or to, too and two.

Carl Sandburg took a crack at TV commercials in a talk to the General Federation of Women's Clubs the other day.

"More than half the commercials," he said, "are so filled with inanities, asinities, silliness and cheap trickery that every thoughtful man and woman who loves the youth of America might ask what this is doing to the young people."

I can tell you one thing it's doing—most of them are smoking cigarettes.

Is that bad?

Yeah, I think so... Final figures from a four-year study of 188,000 men show the lung cancer death rate is 1,000 per cent higher in smokers than among non-smokers.

Also, smoking boosts the chances of a fatal heart attack by 70 per cent.

Filters?

Huh, uh, You're just kidding yourself.

Miss Mary Brown, for many years a home economics teacher at Point Loma High, is retiring tomorrow.

She will be honored at a faculty luncheon.

Hundreds of women in the Peninsula area, her former students, probably are feeding their families intelligently because of her... They will remember her as a kind, thoughtful, gentle, generous person who was interested in producing generations of fine homemakers.

Good luck, Mary!

Peninsula Angler Qualifies With 25-Pound Yellow

With the first of three major fishoffs behind them, contestants in the \$25,000 San Diego Yellowtail Derby settled down to serious efforts to qualify in the second period this week and minimum weight mounted steadily as the result of numerous big fish registrations.

At the start of the third week of the second section, low weight on the list of 150 top catches was 21 pounds 5 ounces.

First period fishoff furnished one more surprise in a year of surprises in that the winner was a woman—first victory for one of her sex in the history of the derby. She was Mrs. Edna Alexander, San Diego, who bagged a 23 pound 14 ounce yellow from Bob Myer's Sportfisher IV to win keys and title to the Chevrolet Station wagon, the No. 1 award.

Other winners were: 23-6, C. R. McKinney, Los Angeles; 21-7, Leonard Machada, Carlsbad; 20-8, Robert A. Young, San Diego; 20-5, Dick Sax, Beverly Hills; 19-7, Taga Goto, Montebello, and 19-4, H. B. Clive, Compton.

Among qualifiers this week was Leonard Cunningham, 3628 Charles St., who bagged a 25 pound 2 ounce yellow and won the second weekly award. In top spot was La Verne Hart, Balboa, with a 26-5.

The Point Loma kelp beds proved a hot spot during the week and excellent catches of barracuda and calico bass, along with some yellows, were made there.

LOMA PORTAL LITTLE LEAGUE

Oscar's Midway bolstered its grip on first place in the Loma Portal Little League last week by rolling to its fourth and fifth consecutive victories, while Cubic Corp. climbed into a tie with North Lumber for second place.

With Steve Goebel contributing a home run, the Oscars survived their closest call of the season as they eked out a 6-5 decision over the Cubics Wednesday. Trailing by one run going into the final inning, the Oscars nailed the verdict when Gordy Lutes double scored Mike Gay and Billy Kravie.

Oscar's made it five wins against no losses Saturday when they walloped North Lumber, 8-0. Ronnie Gerson's two-run double in the sixth panel capped the victors' attack. Allen Campbell led the losers with two hits in three times at bat.

North Lumber launched the week in triumphant fashion with a 4-3 nod over Whitney's. Gary Page notched the winning run when he singled in the last inning stole second and third and crossed the plate on an error.

The Lumbermen now have two victories against three setbacks.

The Cubics established a 2-3 record Saturday when they outlasted Whitney's, 11-9. Larry Wood and Patrick Clarkson scored two runs each and both batted 2-for-3 for Cubic. Whitney Robinson and Richard Davis clouted two doubles apiece for Whitney's.

Beat Summer Heat With Delightful Limes

BY DOROTHY MADDOX

BIG, green, shiny Persian limes from Florida are now in the market. For refreshing drinks, they are perfect (usually one lime yields ½ cup of juice). Used with melon, in fruit cups, jellied soup, they add a welcome "cool" taste for hot-weather meals.

With limeades, use watermelon balls as the garnish—the color combination is delightful.

Limeade

Limes, ice water or carbonated water, sugar, watermelon balls, mint.

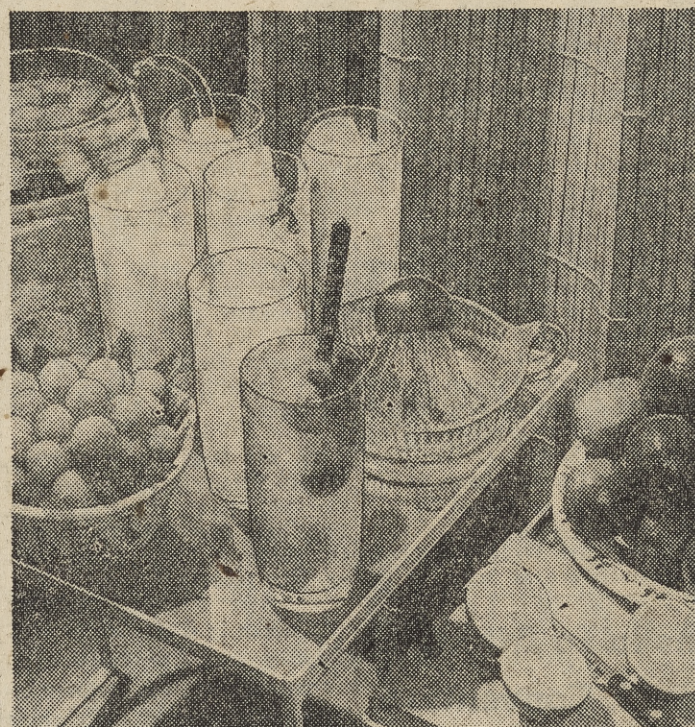

For each limeade pour juice of one lime over ice in tall glass. Add water and desired amount of sugar. Garnish with watermelon balls and mint.

Lime Chiffon Pie

(Yield: one 9-inch pie)

One envelope unflavored gelatin, ¾ cup cold water, 4 eggs, separated, ½ cup lime juice, 1 cup sugar, ¼ teaspoon salt, 1 teaspoon grated lime rind, ½ cup heavy cream, whipped, 1 9-inch baked pastry shell or vanilla wafer crust.

Soften gelatin in cold water. In top of double boiler, beat egg yolks, then mix in lime juice, ½ cup of sugar, and salt. Cook over hot water until mixture thickens slightly, stirring constantly. Re-

Florida limes lend a "cool" taste to refreshing, hot-weather drinks. Garnishing with watermelon balls adds attractive color.

move from heat; add gelatin and stir until dissolved. Add lime rind.

Beat egg whites until stiff peaks are formed; gradually

beat in remaining ½ cup sugar. Fold in gelatin mixture, then whipped cream. Turn into baked pastry shell or vanilla wafer crust and chill until firm.

City May Restrict Use Of Water Here

Mayor Charles C. Dail this week warned that the present water conservation campaign could end in restricted measures unless public cooperation and a "yes" vote for a new aqueduct July 9 are obtained.

Dail is chairman of the county-wide Don't Waste Water Campaign and an official in the County Water Authority's campaign to pass a 35-million-dollar bond issue July 9 to build a new aqueduct to carry additional Colorado River water here.

"Water conservation campaigns in the past never have resulted in restricted measures," Dail told the Don't Waste Water Campaign officials, "but unless a combination of conservation and a vote for the aqueduct succeed, this campaign will result in restricted measures."

Dail said the county would be out of water unless the conservation program is successful and a new aqueduct is built. The Don't Waste Water Campaign is set up to help meet an anticipated 10-billion-gallon water shortage in agricultural areas this year.

Dail said local water consumption is 12.1 per cent under last year's figures to date, but warned that the real challenge of hot, dry summer months lies ahead.

Directors of the Don't Waste Water Campaign this week urged voters to approve the CWA bond issue for a new aqueduct. "Population growth in San Diego County during and since World War II has produced a demand for water far in excess of domestic resources," the campaign's resolution stated. "The only immediate relief is construction of a new aqueduct to bring additional Colorado River water into the area as soon as possible."

Boy Scout Circus Set Friday Night

Twenty thousand San Diego County Boy Scouts and their adult leaders are putting finishing touches on the series of events which will make up the Scout Circus to be held at 7:30 p.m. tomorrow (Friday, June 14) in Balboa Stadium.

Cliff Hansen, circus chairman, said indications are that more than 20,000 persons will see the circus which has, as its main theme, "The Trail to Mataguay" and will portray the history of San Diego County from 1542 when Cabrillo discovered San Diego Bay.

Tickets are available from all Scouts. The cost is \$1, and children under 12 accompanied by adults will be admitted free.

Mataguay is the ranch near Warner Hot Springs which the San Diego County Scout Council is acquiring to develop into one of the nation's outstanding year-round camping areas.

Band music, starting at 7 p.m., will open the Circus.

Christian Science Theme For Sunday

"By a prophet the Lord brought Israel out of Egypt, and by a prophet was he preserved" reads the Golden Text from Hosea (12:13) in the Lesson-Sermon "God the Preserver of Man" in all Churches of Christ, Scientist, Sunday.

The prophet Ezekiel declares the voice of God saying, "I will seek that which was lost, and bring again that which was driven away, and will bind up that which was broken, and will strengthen that which was sick" (34:16).

Correlative passages in the text of the sermon read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy declare, "All nature teaches God's love to man, but man cannot love God supremely and set his whole affections on spiritual things, while loving the material or trusting in it more than in the spiritual." "Love giveth to the least spiritual idea might, immortality, and goodness, which shine through all as the blossom shines through the bud." (pp. 326, 518).

10,000 Blossoms To Be On View At Dahlia Show

More than 10,000 blossoms of every size and description will be on view in this summer's Dahlia show to be held Aug. 3 and 4 at the floral feature of Fiesta del Pacifico.

Dr. J. W. Troxell, president of the sponsoring San Diego Dahlia Society, said the event, one of the floral highlights of the West, will be the first dahlia show of the year in the nation. It will be one of the largest devoted exclusively to dahlias.

It will be staged in the Conference Building of Balboa Park, with twice as much exhibit space as in former years. There will be several new classes, particularly in arrangements.

One innovation will be a class devoted to blooming plants grown and exhibited in pots, Troxell said.

He said it was appropriate that the Dahlia Show be held as a Fiesta del Pacifico feature since the dahlia is a festival flower native to Mexico.

"Even before it was discovered by the white man in 1570, the dahlia was growing wild on the uplands of Mexico and was much prized by Mexican Indians," he said. "It has always been a festival flower, worn as part of Fiesta costumes."

HEALTH FOR ALL

You may have seen recently on your television set a grim little drama entitled "The Victorian Chase Longue," from a novel by the English writer Marghanita Laski. The heroine of this tale had the unique experience of having tuberculosis today and also in the 19th century.

The link between the two time periods was a chaise longue picked up in an antique shop. Home from the hospital to complete her convalescence from TB, our heroine, played by Joan Fontaine, lies down on the chaise for a nap.

She wakes up on the same couch, but in unfamiliar surroundings, with people she's never seen before. It takes her awhile to realize that she has somehow slipped backward in time to the Victorian age. She is no longer a happy young woman

with an adoring husband, but a miserable one whose life has been ruined by a tragic love affair. She still has TB, but in this incarnation she isn't getting well. She's dying.

You can imagine her frustration when the doctor comes to call. She tries to tell him that he is treating her all wrong, that better ways of taking care of tuberculosis have been discovered in the future. Of course, he thinks she's delirious. No one will listen to her. They only urge her to prepare to face inevitable death. There's no hope for her. Fortunately few of us—if any—will ever be faced with this problem. But the story reminds us how lucky we are to be living now instead of in the past.

There's another moral to the story. We can be proud of the gains made in tuberculosis control, as in other aspects of public health. But there is as yet no "sure fire" method of preventing TB. The gains that have been made must be maintained by constant vigilance on the part of our health departments, the medical profession, and ourselves. It's easy to slip backward, harder to regain lost ground.

HERE'S WHY THE REVOLVING AGITATOR LAUNDROMAT* IS BEST!

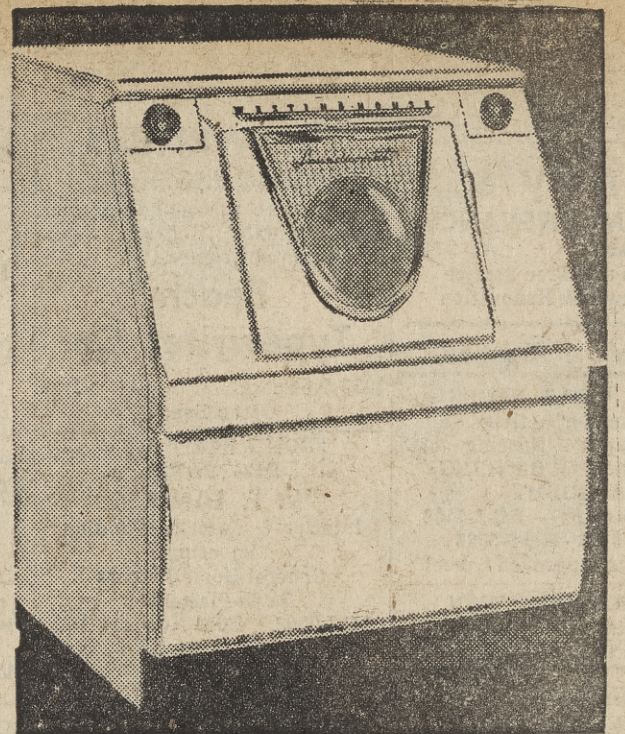

Washes Cleaner!
Laundromat has no center-post. Clothes go *inside* Revolving Agitator which lifts and plunges them 50 times a minute; washes *all* the clothes, constantly.
THE SAND TEST PROVES IT!

Rinses Better!
Revolving Agitator lifts clothes while dirty wash water and soil drain *away* from them, *never* through them. Center-post agitator machines strain it all back through the clothes.
THE SAND TEST PROVES IT!

Cleans Itself!
Because of its all-new patented design the Laundromat is entirely self-cleaning. Cleans clothes and cleans itself automatically. All soil, sand, lint and scum go down the drain.
THE SAND TEST PROVES IT!
